Title of the project Without Border There Is No River
Authors Juan Francisco Panesso Pérez
Title of the course Proyecto Unidad Intermedia Arquitectura del Paisaje
Academic year 5
Teaching Staff Claudio Rossi González, Diego Bermúdez Obregón
Department/Section/Program of belonging Architecture Department, Architecture and Design Faculty
University/School Universidad de Los Andes, Bogotá

Written statement, short description of the project in English, no more than 250 words

The river is perceived as an unknown object inside the city. Society has forgotten it, creating multiple problems for the citizens and the environment.

Now, taking into account that the project's concept is based on a new city established around the water and its behavior, the project proposes to reformulate the river's border.

Therefore, by means of the existing economy and infrastructure in Bogotá, the project distributes into 3 main axes. Given the river's relationship with the pre-existing urbanization and the most appropriate connection with the context around the border, is how agriculture, culture and recreation become the guidelines in the configuration of the public space.
