## TECHNICAL DOSSIER

Title of the project	Mount Grand Reorientated
Authors	Hanley Chen
Title of the course	Major Design
Academic year	4th Year
Teaching Staff	Jacky Bowring
Department	School of Landscape Architecture
University	Lincoln University

Written statement, short description of the project in English, no more than 250 words

Project Vision:

The Mount Grand high-country station will be a place whose embedded values can be proudly celebrated, promoted and leveraged in a sustainable way. By conducting the reorientation, agricultural production, entertainment opportunities, research, education and conservation can be integrated harmoniously, and synergy can be achieved through the interaction between these elements.

A major goal of the project is to improve and diversify ecosystem services by preserving and restoring Mount Grand's fragile but valuable eco-resources.
