## TECHNICAL DOSSIER

Title of the project	Transitioning: A Passage for Two
Authors	Daeun Diane Lee
Title of the course	Landscape Architecture Studio II
Academic year	2018-2019
Teaching Staff	Enrica Dall'Àra
Department/Section/Program of belonging	Master in Landscape Architecture
University/School	University of Calgary / School of Architecture, Planning and Landscape

Written statement, short description of the project in English, no more than 250 words

The project A Passage for Two is the combination of a gateway plaza and a street design plan with the intent of connecting two bordering neighborhoods located in Calgary, Inglewood and Ramsay.

The City expects to complete its new LRT green line by 2026, and one of the new stations will be situated within the project area. 151 Plaza, celebrates 151 years of local history and embrace both neighborhoods as a connecting passage. Also suggested complete street design plan that encompasses five different transportation options: pedestrian, people on cycles, motorized vehicles, public transit, and train reinforcing linkages within the city destinations.

A Passage for Two ensures a vibrant public space for current and future residents. The terraced plaza embedded on existing land creates an extensive atmosphere upon entering the plaza from the north, whereas the plaza effortlessly delivers a sense of convergence drawing people from the south. At its completion, 12th Street will form a new commercial spine of the two neighborhoods.
